

The algorithm below is for drawing the initials “S” and “K” using turtle graphics model where we include some functions of this model such as: penup(), pendown(), forward(), left(), etc

```
Import turtle
Hide cursor
Turn left 180 degrees
Move Forward
Turn left 90 degrees
Move Forward
Turn left 90 degrees
Move Forward
Turn right 90 degrees
Move Forward
Turn right 90 degrees
Move Forward
Penup to end S and place it to start K
```

```
Turn left 90 degrees
Move Forward
Turn left 90 degrees
Move Forward
Pendown to start writing K
```

```
Turn left 90 degrees
Move Forward
```

```
Penup
Turn left 180 degrees
Move Forward
Pendown
```

```
Turn right 45 degrees
Move Forward
Penup
Turn left 180 degrees
Move Forward
Pendown
Turn left 90 degrees
Move Forward
```
